

Volunteer Management Software to help with rotas etc

- Better Impact is designed for managing and scheduling volunteers. It's used by Oxford University museums among others.
<https://www.betterimpact.co.uk/volunteer-impact-volunteer-management-software/>
- Volunteero is a charity sector volunteer management system
<https://www.volunteero.org/>
- Homebase is a free system that is designed for employees, but can be used effectively for drawing up a rota and asking people to opt in for shifts they can do.
<https://joinhomebase.com/>
- This page from the Sheffield Volunteer centre suggests ways to use Google Calendar (free) or some other charity-sector options
