

World War I Museum Box

<http://museumbox.e2bn.org/>

Museum Box enables the user to build up an argument or description of an event, person or historical period by placing items in a virtual box. What items, for example, would you put in a box to describe your life, the life of a Victorian Servant or Roman soldier; or to show that slavery was wrong and unnecessary? You can display anything from a text file to a movie!

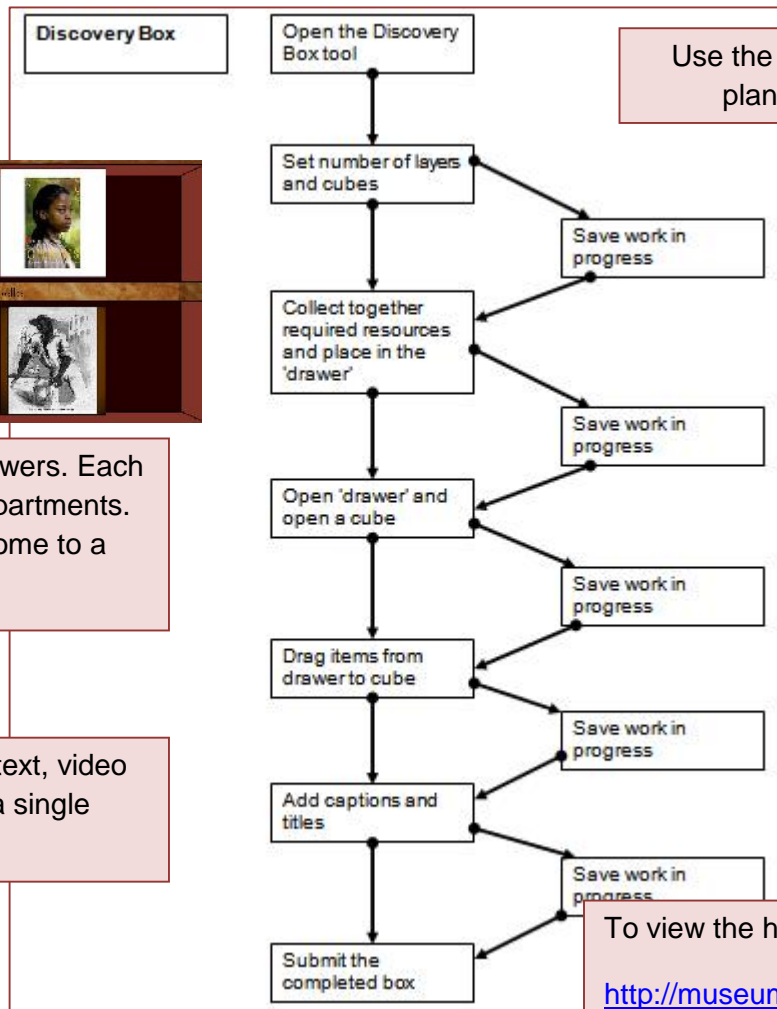

Prior to using Museum Box please click on the link to complete the online registration form:

<http://gas.services.e2bn.org/registration?appID=museumBox>

Inside each box are drawers. Each drawer consists of compartments. Each compartment is home to a cube.

Up to 6 items (images, text, video files) can be stored on a single cube.

Use the flow diagram below to plan and create a box.
